SEMI SUBMARINE

AN EXPERIENCE UNDER THE SEA

Bring the whole family and discover the wonders beneath the beautiful seas without even getting your feet wet! This semi-submarine excursion offers a close-up look at the unique marine life around the island, and if you're lucky, you might even see some dolphins. The upper portion of the semi-submarine remains above the surface at all times, while the lower part is located 1.3 meters underwater. Through large windows in the underwater hull, you can enjoy spectacular views of the underwater ecosystem, creating the illusion of a real submarine dive. This is the only vessel where you can sit below the sea surface and truly feel like you're diving.
